

Giant Nutcracker Drawing

by Art Projects for Kids.org

MATERIALS

- Pacon Kraft Paper, white, 36" wide
- Scissors
- Black marker, thick chisel tip
- Crayons

DIRECTIONS

1. Cut a sheet of white kraft paper 60" long.
2. Fold the sheet in half lengthwise and cut on fold to make a panel that is 18" x 60".
3. Fold this new sheet in half lengthwise. Fold it in half three times, the long way and crease edges. Unfold so that you end up with a grid that is 2 panels wide by 8 panels tall.
4. Sketch the nutcracker according to the diagram. The fold lines will help you make a well proportioned figure.
5. Trace the drawing with a marker and color heavily with crayons.
